LISTING OF THE CLAIMS

This listing of claims, amended as indicated below, will replace all prior versions, and listings, of claims in the application

Claims 1-6 (Canceled)

- 7. (Previously Presented) The golf swing training device of claim 12, wherein a length of said non-resilient line is approximately seven meters and a length of said resilient line is approximately five meters.
- 8. (Previously Presented) The golf swing training device of claim 12, wherein said non-resilient line is secured to said golf ball by an expansion means or a holding ring that is coupled to a corrugated fastener member located at a core of said golf ball.
- (Previously Presented) The golf swing training device of claim 12, wherein said non-resilient line is secured to said golf ball by a vulcanization process.
- (Previously Presented) The golf swing training device of claim 12, wherein said golf swing training device controls return of said golf ball and prevents said golf ball from reaching said player.
- (Previously Presented) A golf swing training device usable with diverse golf clubs comprising:
- a góif ball;
- a non-resilient line having a first end secured to said golf ball and a second end which is anchorable to the ground at a predetermined distance from said golf ball when the device is to be used; a resilient line that is anchorable to the ground at both ends when the device is to be used;
- a ring that encloses said non-resilient line and said resilient line, said ring being slidable along said nonresilient line and along said resilient line, and
- a plurality of set-up guide indicators located on said non-resilient line, the indicators representing respective locations which a user can select for the approximate center of said resilient line to cross said non-resilient line when the ends of said resilient and non-resilient lineare anchored PAGE 34 'RCVD AT 11/12/2004 5:32:00 PM [Eastern Standard Time] 'SVR:USPTO-EFXRF-U11 DNIS:8729306 'CSID:212 382 1255 'DURATION (mm-ss):01-36

to the ground for use of the device, such that the device will operate correctly with a particular selected type of golf club.

(Previously Presented) The golf swing training device of claim 12, further including ground anchors attached to the non-resilient line at the end opposite to the golf ball, and to both ends of the resilient line.
